

PHOTO FINALE

Hello Photo Finale Dealers,

We are excited to become a Photo Finale Marketplace Partner and launch our products on the PF Platform. Grateful Engraving opened in 2024 with both the owners coming from over 30 years of combined industry experience. We specialize in unique sublimation glass picture products such as our curved and flat pieces, ornaments, coaster sets and the brand new sublimation/Etched bottles. The owner was the originator for the recipe Incandescent Color Effect of Glass Prints which gives a true glass picture quality on all products. We are committed to giving you excellent products in addition to incredible customer service.

Thank you,

Albert Dorgan
